## The Affairs of Hayti.

An Interview With the Ex-President, General Legitime.

WHO IS NOW IN NEW YORK CITY.

Hisself and Suite En Route to Paris—He Gives a Graphic Account of the Recent Troubles on the Island and the Part He Took in the Affairs.

New York, Sept. 6.—The steamer Manhattan, of the Ward line, having on board Gen. Legitime, the ex-president of Hayti, and suite, arrived safely from Santiago de Cuba after a remarkably fast journey of five days. There were only nineteen passengers on board and fourteen of those included members of the ex-president's family and generals. The Legitime party left Port-au-Prince on Aug. 22, on a merchant vessel, and went directly to Cuba. They boarded the Manhattan at Santiago last Saturday and had a very enjoyable trip to this city.

GEN. LEGITIME, NOMINAL PRESIDENT OF THE HAYTIAN REPUBLIC.

After the steamer had been tied up at the dock for an hour Minister Preston and Consul Deslandes took the party in charge and later escorted them to the Hotel Martin on University Place where they will remain until next Saturday, when they will sail on the French line steamer La Bretagne for Paris. In an interview with the United Press reporter ex-President Legitime said: "It is an unfortunate fact that our country is torn and rent with internal dissensions, and whenever peace will settle in Hayti I am sure then will be day of prosperity begin. For a long time I was minister under old Solomon, and suddenly our relations became strained. Reports of a false nature were conveyed to the old president that I was a traitor to his people. In order to remove all semblance of such a thing on my part I resigned my position. By the most pressing invitations and requests of friends I returned to Hayti, and on Oct. 7, 1888, was elected formally and regularly president of the provisional government of Hayti.

"Everything was done fairly and equitably in my election, but notwithstanding all the piling spurs in the north caused me of mind and cheer, and Gen. Thielen came down with an army to declare himself the desired president of the north and south. I, of course, resisted an usurper, and about a week before the general election my troops and those of the north, with Gen. Thielen at the head, had an engagement, and Thielen was killed in it. It is absurd to suppose and believe such statements that I, through friends, caused the death of Thielen. I did not conspire for his assassination; he was killed in battle on the battlefield. I would have no motive for having him assassinated, as I felt sure that my election was certain and my friends, the deputies, were in the ascendancy. My enemies in the north now completely turned Thielen's death into an assassination.

"We heard that four deputies from the north were on board the steamer Haytian Republic with the intention of causing its destruction, and as to seize them. The seizure of this vessel was entirely a mistake for which we were sorry, and this is evident by the apologetic manner in which we turned her over to the owners together with a large indemnity for the affair. I was duly elected president of Hayti on Dec. 17, 1888. My succession to that office was just in accordance with the will of the people. But I knew my enemies would not cease to keep awake and prevent my every little act into those of a tyrant and usurper.

"The war was begun soon after my accession to power and circumstances and my people's rights forced me to engage in it. The war has been a bloody one and of long duration. Hippolyte came down from the north sweeping destruction before him and spilling blood in a most shameful and diabolical manner, and I am sure that the loss of so many lives pained me quite as much as the report of my people abandoning me and rallying to the standard of Hippolyte is the solely to that. I lost considerable men in battle, the number of which I cannot now aggregate. The loss of life on both sides have been terrible, but I believed I was in the right cause in protecting my people's rights.

"But fate was against me and the increasing numbers of the northern army threatened my southern country with destruction of the blood and lives of my people, and there was no better, wiser and more proper course to pursue than for me to resign and retire quietly and peacefully from the country. This I accordingly did; I was not forced to leave Hayti, nor was there any surrender. The diplomatic corps in Port-au-Prince concurred with me in my views as to quietly leaving the country, and their positions and requirements will enable them to bear me out.

"I deemed it best to retire and thus save the lives and property and prosperity of Hayti. I am now on my way to France with my family and generals, where I will spend some little time. My departure from Port-au-Prince was in accordance to me. I love my people and I have every reason to believe they love me. It is very possible that after a year in France I may return to Hayti. I have no doubt that by this time Hippolyte has entered Port-au-Prince and declared himself president. He is not the kind of man to be at the head of affairs, his training and education not qualifying him for the presidency, at least not in the opinion of the ex-president's actions.

"I do not believe a president will not, I think he is of long duration, in the event of his assumption of such power, the people will soon become dissatisfied with his methods, and he will find it more convenient to retire. Hayti is a war with and in herself. She has no outside or foreign interference, nor have the French in any way participated in the struggle. Foreign interests in Hayti will always be respected, and so far as those of Americans, they will, I think, be untouched. Minister Thompson we have always regarded as a good man and I am sure we have so far found no cause of complaint against him. My impression is that my country will not interfere with American interests."

## OHIO STATE TELEGRAMS.

### VARIOUS HAPPENINGS IN DIFFERENT PARTS OF THE STATE.

The Society of the Army of West Virginia Meet in Columbus and Elect Officers for the Incoming Year—Reunion of the Sixty-Second Regiment—Other State News.

COLUMBUS, O., Sept. 6.—The business meeting of the Society of the Army of West Virginia was held in the board of trade auditorium at 9 o'clock. Gen. R. F. Kelly acted as chairman, and appointed a committee to select a site for the coming year's meeting of the society. It will probably be held in either Pittsburg or Boston.

The officers elected for the ensuing year are: Gen. George B. Cook, president; and for vice presidents, Gen. R. B. Hayes, Fremont; Gen. W. H. Powell, Belleville; Gen. T. H. Powell, Wheeling; Gen. E. E. Kelly, Washington; H. P. Duval, W. H. Locks, Parkersburg; Maj. R. M. Skinner, Cambridge; Col. John A. Farley, Portsmouth; Thos. M. Ryan, Wheeling; Maj. James L. Colburn, Capt. R. C. McWhorter, Charlotte, W. Va.

Stevens Second O. V. L. Reunion.

McCONSVILLE, Sept. 6.—The sixty-second annual reunion of the Sixty-second and O. V. L. was held here yesterday, this being the first time since the late war that the reunion of the two regiments of both this place and Malta made elaborate preparations for their entertainment while here free of charge. About 125 members of the regiment are in attendance.

An Ohio Girl Married Abroad.

LONDON, Sept. 6.—Miss Jennie M. Chamberlain, second daughter of Mr. Chamberlain, of Cleveland, O., was married yesterday in St. George's church, Hanover square, to Capt. Herbert Naylor Leyland. The bride wore white satin with silver and pearl ornaments. The sister Josephine was bridesmaid. The presents were numerous, and included a bracelet in the shape of a horseshoe studded with diamonds and pearls to the bride, and a diamond ruby pin to the groom from the Prince of Wales.

Ask for More Wages.

CLEVELAND, O., Sept. 6.—A special from Sharon, Pa., says the iron workers of the Shoenaga, Pa., valley held a meeting at that place and decided to ask for an increase of wages of 10 per cent. The increase to take effect by the middle of this month. Two furnaces have granted their request and it is thought that the rest will comply.

KNOCKED OFF A TRAIN.

One Man Horribly Mangled and Another Fatally Injured.

COLUMBUS, O., Sept. 6.—A frightful accident occurred about noon yesterday, on a Seota Valley train just this side of Chillicothe. The special train bringing the Knights of Ivanhoe to this city for their exhibition at the fair grounds from Athens, came by way of Chillicothe, in order to give an exhibition at that city next Saturday. The train had freight cars attached, in which were the horses of the knights.

Two members of the order, Winfield Scott and James Calhoun, had occasion to get on top of one of the cars. While their attention was attracted to a different direction, the train passed under a bridge which surmounted the track. They were knocked off the top of the train. Calhoun was mangled in a horrible manner, and when picked up his remains were found to be so mutilated that he could only be identified by the uniform he wore. Scott was violently struck, and there are little hopes of his recovery. Winfield Scott is supervisor of the Athens Insane asylum, and a cousin of President Scott, of the Ohio state university. Calhoun was also an employee of the asylum.

THE STATE CAMPAIGN.

Governor Foraker to Speak at Xenia, and J. E. Campbell in Delaware County.

COLUMBUS, O., Sept. 6.—The Democratic committee report urgent demands from all over the state for their standard bearer, Hon. James E. Campbell, to open the campaign in some particular spot. It is expected that he will make his opening speech in Delaware county. He is now slated for speeches at Batavia on the 9th and at Somerset on the 10th.

Governor Foraker will open the campaign this year at Xenia, on Saturday of the week. From that time on he will be all over the state, but will probably not be able to visit one-fourth the places where he is wanted.

If one can judge by preparations being made by committees of both parties, this fall's campaign will certainly not be a lukewarm affair.

TOO MUCH WATER.

Excessive Rain in Arkansas Threatening Cotton Season.

LITTLE ROCK, Ark., Sept. 6.—During the last four days this state has been visited by an unusual amount of rain fall. It began on the 1st inst., and has been raining almost constantly since. The fall has been general throughout the state, the precipitation being about equal at all points. The signal service office here has bulletins from all important towns of the state, and from these it is learned that an average of 15.71 inches has fallen, or about four inches per day.

At Little Rock 1.58 inch fell yesterday, while at Paris, Tex., 3.50 fell. The present rain is considered something more than ordinary when it is remembered that a fall of one inch is a good rain. Cotton men throughout this section are considerably worried over the matter, as the rain will tend to knock some out of the boll. The prospects of a big crop are nevertheless very promising.

Frost in Kansas and Missouri.

KANSAS CITY, Sept. 6.—Reports from points in Kansas and Missouri show that a light frost prevailed throughout the northern parts of those states last night. No damage to the corn crops reported. The cold wave that swept over the state of Kansas yesterday and the low temperature of today were welcomed on account of the threatening hot winds, which had begun to do some damage to the corn. No further damage from that cause is anticipated now.

Wintry Weather in the Northwest.

ST. PAUL, Minn., Sept. 6.—During the past twenty-four hours the thermometer has fallen 20 degrees. Quite a cold snap has been experienced all over the northwest, culminating in a severe frost at Chicago. As the wind is veering around to the south, a warmer spell is looked for. The fact that migratory birds are rapidly leaving southward is considered to augur an early winter.

THE RACE WAR.

No Further Trouble at Sunnyside, but Bloodshed Expected Elsewhere.

NEW ORLEANS, Sept. 6.—The Times-Democrat, Grenville, Miss., special, says: "The trouble at Sunnyside is about at an end. There remains only George Allen to be dealt with. His party have all deserted him except one man with whom he crossed the Tallulah river, and when last heard from was making his way to Charleston in Tallulah county."

As there is a posse of fifteen men on his trail his capture is only a matter of time. The whereabouts of Oliver Cromwell, another negro leader, are unknown. There have been no more negroes killed since last report. There can be no doubt as to the correctness of previous reports of the number killed.

Conflict Between Whites and Blacks.

CHARLESTON, W. Va., Sept. 6.—The situation along Elk river between the whites and blacks, is such that an open conflict may be participated at any time. The center of the trouble seems to have shifted from Echo to Sewell, and there is much concern among the leading citizens and authorities as to the outcome. The last incident, a drunken brawl, the most villainous breach of the peace may lead to bloodshed.

Negroes Arming.

CHATTANOOGA, Tenn., Sept. 6.—A petition is being circulated among the negroes to secure funds with which to buy Winchester rifles and form a secret military company to join the negroes of Sevier, Ala., and Greenwood, Miss. The members of the company are sworn to secrecy. The plot has been discovered in time to prevent the negroes from carrying out their designs.

Barred Under a Falling Wall.

LINDSEY, Neb., Sept. 6.—The collapse of two buildings on O street shortly after 2 o'clock yesterday caught seven men and buried them beneath the debris. Six of them were rescued in a few minutes without serious injury, but the other, Dr. Kelso, was caught head downward between the ceiling and the floor of his office, and it was over three hours before he could be released. No one was seriously injured. The collapse was caused by a fire which had weakened the timbers. The losses are supposed to reach \$40,000.

Explosion of Fire Damp.

PANA, Ill., Sept. 6.—A terrific explosion of fire damp in shaft No. 2, Pana Coal company's mines, occurred at 2 o'clock this morning. Several men were at work closing an old room when the explosion occurred, and William Leitham was blown a distance of nearly one hundred feet, and probably fatally injured. Edward Jackson and William Brothers were seriously injured. It is claimed the men had disobeyed instructions by not keeping their lamps close to the floor, as it was known there was a dangerous quantity of gas in the room.

A Double Crime of a Colored Man.

PITTSBURGH, Sept. 6.—William A. Smith, colored, residing in Fulton street, killed his wife this morning by shooting her through the head. He then shot himself three times. He will die. Jealousy was the cause of the double crime.

Three Seaters from Behring Sea.

VICTORIA, Sept. 6.—The sealers Viv, Pendole and Adela from a Behring sea, have arrived with 1,000 skins. They saw nothing of the United States revenue cutter Bush.

## Important Meeting.

The Western Waterways Convention in Cincinnati.

A PERMANENT ORGANIZATION.

Captain C. M. Holloway Selected as Chairman of the Convention—Resolutions Adopted Calling the Attention of Congress to the Necessity of Further Improving the Rivers of the West.

CINCINNATI, Sept. 6.—The eighth convention of delegates interested in the improvement of the Ohio and Mississippi waterways began business with the report of the committee on credentials, with Mr. Wood, executive chairman, in the chair in Judge Holman's absence. The report was made by Nathan Frank, congressman, representing St. Louis, Mo. This long list, representing eighteen states, was read, and after adding a number of names from Ohio, Indiana and Louisiana submitted, the report was adopted.

The committee on permanent organization, through R. S. Carr, of West Virginia, reported C. M. Holloway, of Cincinnati, chairman; secretary, Edwin Stevens, of Cincinnati, and a vice president from each state.

Capt. Holloway was escorted to the platform and plaudits by Capt. Addison Sykes, of Pennsylvania. Capt. Holloway said:

"I am not unmindful of the compliment bestowed in being selected to preside over the delegates from fifteen states. Cincinnati is deeply interested in the waterways of the west. She was called the Queen City long before the railroads came to stimulate her growth. The great city has expended \$25,000,000 in the construction of our Southern road, and will go down to history as an exceptionally enterprising city for that act. If Congress should spend so much money on the Ohio and her tributaries there would be such an increase of the facilities for transportation as would be of equal advantage to Cincinnati and the Ohio valley with that of her southern road to the gulf."

He had become convinced of the necessity, not only of improving the rivers but of deepening the harbors of the country.

He desired to call attention to an incident in the building of the Chesapeake and Ohio bridge, when the flood carried to the bottom of the river the timbers and iron work of a section of the bridge. These remain as dangerous obstructions in the river, and the journals warn daily the river men to beware of the obstructions, yet the company has made no effort to remove these obstructions, and the government has been exceedingly slow in sending a tug boat to effect that purpose. One is said, however, to be on his way.

The original bill would have permitted this bridge to be built, at so low an altitude as would have blocked nearly all traffic on the river. It illustrates how carelessly the government guards the water highways of the country.

The committee on rules and order of business, thereupon made its report, M. J. Murphy, of Missouri, chairman. The principal rules were those confining speeches except addresses, to five minutes, and referring all resolutions without debate to the committee on resolutions. To this last, objection was taken on the score that it would cut off amendments, and a motion to amend by striking out.

This led to a debate, in which it was developed by John G. Shanklin, of Indiana, that the purpose of the amendment was with a view of being able to present resolutions affecting local interests which would tend to prevent the accomplishment of the general purpose of the convention, to effect regular and general appropriations by congress. After a lengthy debate, in which Mr. Cleland, of Iowa, spoke eloquently in its favor, the report was adopted.

J. H. Murphy, chairman of the committee on resolutions, reported a document so satisfactory to all sections that it was unanimously passed after being read. The principal clauses were, in substance, as follows:

(1.) General opinion of the duty of the government toward the waterways.

(2.) Regret at the failure of the last congress to make appropriations.

(3.) The necessity of improving and protecting the Mississippi and Ohio and their tributaries.

(4.) Approval of the work of the government thus far done upon the rivers and of the United States snagboat and other service.

(5.) Demanding the protection of all streams from the obstruction of bridges, that the waterways, which are the guaranty against monopoly of transportation, shall be free and unrestricted.

(6.) Approval of the improvement of the Ohio by the movable dam system.

(7.) Approval of the scheme for joining the upper Ohio with the northern lakes by a ship canal to Lake Erie, if practicable.

(8.) Also of the junction of the upper Mississippi and the lakes, and of the canal from Rock Island to Hennepin, on the Illinois river.

(9.) The freedom from all obstructions and the prohibition of all encroachments by corporations.

(10.) Approval of the improvements of the Mississippi and desire for their continuance.

Many letters received, presenting excuses for non-attendance, were read. They were from Mayor Mosby, Governor Foraker, James B. McCreary, of Kentucky; C. H. Grosvenor, Hon. William McKinley, W. B. Allison, E. V. Brookehouse and L. J. Dupre, editor of the Alabama Evening News.

A resolution was passed tendering

thanks to the officials of the convention and to the chamber of commerce and citizens of Cincinnati, and to Judge Taylor for his paper.

John E. Dravo, of Pittsburg, invited to the stand, pronounced a eulogium upon the rivers as cheap traffic ways, and denounced the railroads which obstruct them, and other corporations exercising assumed rights in the streams. He cited the case of the Monongahela, on which the coal which comes to Cincinnati is taxed by a corporation.

C. A. Carder, of Indiana, offered a resolution favoring the incorporation of the Western Waterways Association, which, on objection, was ruled out of order.

Thereupon a motion to adjourn was entertained and passed.

THE NAGLE TRIAL.

Justice Field Tells the Story of the Shooting of Judge Terry.

SAN FRANCISCO, Sept. 6.—In the case of Deputy United States Marshal Nagle more testimony was adduced yesterday showing that Terry habitually went armed and indulged in violent acts.

Justice Field testified: Deputy Nagle and myself entered the dining room at Lathrop for breakfast, and soon after taking our seats Judge Terry and his wife entered. As they passed down the aisle Mr. Terry glanced at me for the moment and then turned about and left the place. Judge Terry seated himself and we immediately and came toward me. Before realizing what he intended to do, I felt a powerful blow on my cheek. I turned around and saw Terry's great form towering over me with his clenched fist upraised. I then heard Nagle say: "Stop, I am an officer." I then heard two pistol shots in quick succession, and saw Terry fall to the floor. I was dazed for a moment, but soon realized that Terry had received a death wound, and I arose and left the room.

Justice Field further testified that he believed that if Nagle had not shot Terry he (Field) would have been dead within the next few seconds. The expression of Terry's face when he raised his hand to strike a second blow could not be mistaken. It was full of malice and murder. Justice Field declared that he had never had any difficulty with Terry prior to the Sharon decision a year ago. "They had been on the most friendly terms," Terry had often tried cases before him, and on numerous occasions had always spoke pleasantly. During the last year or two, however, he seemed to have entirely changed, and to have lost his respect for the court. Justice Field added that the story of his having asked Terry to support him for president some years ago was pure fiction.

Justice Field was not cross-examined.

BLOWN TO ATOMS BY DYNAMITE.

Two Men Instantly Killed and Several Others Injured Near Jacksonville.

JACKSONVILLE, Fla., Sept. 6.—A terrible explosion occurred yesterday at the mouth of St. Johns river, by which two men were killed several others injured. Capt. Ross, in charge of the government jetty work at St. Johns bar, has been engaged for several days in blowing up the submerged wreck of the old Dutch brig Nova, which has for years obstructed the channel off Mayport. He had in his employ a lighter in command of Capt. A. C. Moore, with a crew of twelve men.

Two of the men, E. F. Moore, a son of the captain, and Grant Foxall, colored, were soldering a can of dynamite, when it exploded with a terrific report, and blew both men to atoms. Only one ton of Moore was found after the explosion. Engineer Dunn, of the lighter, was badly wounded in the side and arm. Capt. Moore was badly shaken up, but is not seriously injured. The explosion was heard for miles around, and caused an upheaval of water and tremor of the earth, which created considerable alarm. The machinery of the jetty, lighter and engine was completely demolished.

London Strike Affects Boston.

BOSTON, Sept. 6.—Upward of 200 stevedores, longshoremen and freight handlers were idle at Hoosac dock yesterday, on account of the great London strike, which detains three ships of the Furness line in London.

## Crisis Approaching.

Germany and Russia Preparing For War.

A BLOODY CONFLICT IMMINENT.

Emperor William Taking Steps That Will Force Russia to Show Her Hand—Boulangier's Program—Earthquakes in France—Other Foreign News.

LOSDON, Sept. 6.—Little by little the German army is being increased, and one army corps after another is being added to the effective strength. Since the opening of the year no less than four corps have been added, and now the formation of a fifth, with headquarters at Brouberg, on the frontier. This move is evidently intended as a reply to Russia, who continues to mass her troops upon her western frontier, and in this way Emperor William serves notice upon the czar that he does not mean to be caught napping.

The German press comments upon this latest move of the emperor are full of significance. It is pointed out that, contrary to the usual custom in such cases, there is no attempt at concealment. The emperor seems to have taken special pains to give the fullest possible publicity to his plan to mass a formidable force on Russia's frontier, and this the German press accept as a note of defiance. The more sensational of the Berlin papers go so far as to say that this indicates a determination on the part of the emperor to force Russia's hand. Should Russia reply by further increasing her forces on the German and Austrian line, as is confidently expected, the crisis will be precipitated before the end of the year.

The London Strikers.

LOSDON, Sept. 6.—The striking dock laborers, through their managing committee, yesterday gave notice that resolutions of sympathy and aid accompanied by cash exchequer contributions among them, the considerable bitterness toward America and the Americans they contrast the large sums subscribed for their cause in Australia and the empty resolutions of sympathy and brotherly love with which the Americans contented themselves.

Five thousand men were at work at a late hour last night, loading and discharging vessels at the wharves here.

The dock workers at Wales have made a demand for a 10 per cent advance in their wages, and threaten to strike if it is not granted.

A Mine on Fire.

GLASGOW, Sept. 6.—The Maurice Wood limestone pit, at Middleton, is on fire. Sixty-two miners are in the pit, and the chances of saving them is very small. Two bodies have been recovered and workmen are trying to reach the others.

Mrs. Maybrick Improving.

LOSDON, Sept. 6.—Mrs. Maybrick's health has so far improved that the physicians at the working prison, where she is confined, has discharged her from the infirmary, and she now occupies a solitary cell.

Earthquake in France.

PARIS, Sept. 6.—Earthquake shocks were felt yesterday in the western part of France. The shocks were most severe at Angers and Nantes, but no damage is reported.

Immediately in Securing the Cronin Jury.

CINCINNATI, Sept. 6.—Twenty-seven talesmen were examined in the Cronin murder trial yesterday. When court adjourned all had been excused for cause, except George A. Cronin and E. E. Graham. Foreman Cross still remains the only juror who has been passed by both sides, but it is probable he, too, will be dropped, as under the ruling of Judge McConnell the right of peremptory challenge may be exercised until the twelfth man has been passed by both sides.

Severe Fire Loss.

WISCONSIN, Sept. 6.—Fire yesterday afternoon in Laird, Norton & Company's lumber yards destroyed 22,000,000 feet of lumber, 7,000,000 shingles, a three-story brick ware house and contents, and other property. Loss, \$300,000; insurance, \$178,500.

Giving Time to Celebrate.

BALTIMORE, Sept. 6.—At a general meeting of the corn and flour exchange it was resolved to adjourn over Monday, the 9th, and Thursday, the 12th inst., in order to allow members time to celebrate the anniversary of North Point.

Result of a Drunken General.

PRERADUNA, Sept. 6.—Six laborers of Bradlock yesterday visited Beaver Falls, Pa., and going out into the woods engaged in a quarrel with several keep of beer. Last night five of the men were found dead drunk and the other one with a bullet-hole through his heart. Officers were summoned, but the men in the meantime made their escape.

The Greenback Party Reorganized.

BRUNSWICK, Ala., Sept. 6.—About fifty delegates from thirty counties met yesterday and reorganized the Greenback party of Alabama. It is headed by W. H. Davidson, who was recently an unsuccessful applicant for the United States marshalship of north Alabama.

A Great Business Showing.

SAVANNAH, Ga., Sept. 6.—The Morning News publishes a review of Savannah's trade and commerce for the last twelve months, showing a total business of \$100,000,000, an increase of about \$3,500,000 over the preceding twelve months.

—The greatest of all musical comedies,  
the "Kindergarden," which is to appear at  
Music Hall next Tuesday evening, is an at-  
traction that will please everybody. The  
play is very funny, with new songs and  
dances, interspersed with elegant music.

—To help move the Clement Bros.' stock  
we were obliged to stock up our merchant  
tailoring and hat departments. We are  
opening some fine goods in foreign and  
domestic cloths and accessories, which we  
propose to make into suits at a small mar-  
gin above actual cost to manufacturer.  
Balance of the old stock, made up at cost.  
Come and see us if you desire a good suit  
of clothes, overcoat or a pair of pantaloons.  
We have also received this fall's shapes in  
stiff and soft hats. We do not pretend to  
ask regular retail price for our new stock  
of hats. Another lot of the famous 17 cent  
unadorned shirts just received. We  
guarantee to save you big money on every  
article purchased at our store.

as much fuss as

**A BULL IN A CHINA SHOP**

Over our low prices, though like the  
bull we are smashing things in the way  
of price, and intend to break them up  
or break down in the attempt. But our  
customers are as happy as

**A FIG IN CLOVER**

When they see that they got the benefit
